EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claims 5 and 6 are cancelled.

In claim 9 line 2, "lower electrode" is deleted; in its place, - - heater - - is inserted.

In claim 10 line 2, "lower electrode" is deleted; in its place, - - heater - - is inserted.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney Timothy N. Trop Reg. No. 28,994 on March 24, 2004.

The following is an examiner's statement of reasons for allowance:

Claims 1-4, 9, 10, 3 are allowed primarily for the reasons delineated below.

The rejection under 35 U.S.C. 112 is overcome by applicant's remarks in the Reply filed March 5, 2004, page 2; the cup-shaped heater corresponds to the cup-shaped electrode that is characterized as element 22 in Fig. 2 which provides heat for producing phases changes at lower currents. Accordingly, the specification at page 4 lines 14 and 15 and the specification taken with the portion at page 9 lines 8 and 9 thus would provide support for the limitation in question, although the same terminology in question was not in the specification. In re Wright, 866 F.2d 422, 9 USPQ 2d 1649 (Fed. Cir. 1989). The claims are further deemed patentable over the prior art of record since the prior art of record, singly or in combination, do not teach the limitations as claimed

including forming the tubular electrical connection or first cup-shaped electrical connection through a layer to the base contact; depositing an insulator within the electrical connection; forming a cup-shaped heater or second cup-shaped electrical connection which is electrically coupled to the tubular or first electrical connection; and forming a phase-change material which is electrically coupled to the contact through the first connection and the cup-shaped heater or second connection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Quach whose telephone number (571)272-1717. The examiner can normally be reached on M - F from 8 to 4.
